Exzel Smart Lock
Your Phone Is the Key to the New Smart Lock

Control who can enter and who can't – using your smartphone or computer

Simply pick family, friends or guests from your contacts and issue them keys in seconds. With Auto-Unlock function, the Smart Lock senses your approach and magically unlocks your door for you, without having to even touch your phone

Keyless: Encrypted locking technology is safer than keys that can get lost or codes that can be copied.

Total Control: You control when people have access to your home. For example, you can issue a key that works a day for your party list.

Log records: You can see a log of who's entered and exited – and when they did. All of this remotely from your phone or computer.

Auto - Unlock: With Auto-Unlock, the Smart Lock senses your approach and magically unlocks your door for you, without having to even touch your phone.

Exzel Smart Home is **the Thailand leading one-stop Smart Home** solution provider**.** Our products include **Home Theater, Multi-Room Audio & Video System, Whole Home Control: Smart Lighting Control, Entertainment System Control, Security + Fire Alarm System, Keyless Door Lock**, etc.

Features

DESIGN

Enjoy beautiful, discreet design with an intuitive interface. Durable anodized aluminum, a clever use of LEDs and your choice of color and finish make August both elegant and discreet.

BLUETOOTH

August works independent of your wireless or phone networks. Reliable Bluetooth technology syncs your phone directly with your August lock.

NO WIRING

There's no need to wire or connect August – it uses standard batteries. That means your lock stays on even if electricity goes down. Sensors will let you know, with indicators, and via email, when the batteries need replacing.

UNIVERSAL

Package includes deadbolt adapters and faceplates to accommodate 90% of locks on the market.

Color available: Initial colors available are anodized Silver and Black.

Anodized aluminum in silver

Anodized aluminum in Black

What smartphones is the Smart Lock compatible with?

The Smart Lock is compatible with iPhone, and Android with Bluetooth Low Energy compliant. You can always unlock the lock with included physical keys.

Exzel Smart Home is **the Thailand leading one-stop Smart Home** solution provider**.** Our products include **Home Theater, Multi-Room Audio & Video System, Whole Home Control: Smart Lighting Control, Entertainment System Control, Security + Fire Alarm System, Keyless Door Lock**, etc.
