- Every purchase of DSC PowerSeries 9045 package will entitle to purchase compatible wireless accessories: wireless key (WS4939), wireless motion sensor (WS4904), wireless door/window contact (WS4945), wireless smoke & heat detector (WS4916), and wired siren & strobe (flash light) at special **30% discounted price** (Limited to 4 pieces of accessories per every DSC PowerSeries 9045 package purchased)
- Pricing for Central monitoring services package is only good for up to 6 sensors/detectors in the system. Contact us for quotation if you plan to have more than 6 sensors/detectors in your system.
- Standard Installation fee for Bangkok and peripheral area inclusive. Contact us for installation charges outside Bangkok and peripheral area.
- Please add 7% VAT (Value Added Tax) to all prices.

Hi Light Features of Package 10

DSC PowerSeries 9045 – SCW9045 (SCW9045 is a non US, non Canada SCW 9047 version)

Offering more than just great looks, the DSC self-contained wireless alarm system is a full-featured home security solution that delivers the same functionality as other wired systems, but with minimal compromise to the home structure.

Features

- Smallest footprint of any self-contained wireless alarm system available
- Esthetically pleasing design
- Secures up to 32 wireless security zones and accommodates up to 16 wireless keys
- Fully programmable labels for viewing on the LCD display (ex. John's Room); maximum of 32 characters
- 5 programmable function keys (Stay Arm, Away Arm, Chime, Bypass and Quick Exit)
- Easy access emergency keys (Fire, Auxiliary or Medical, and Panic)
- Program up to 17 individual access codes
- Easy-to-view status lights
- Numerous false alarm reduction features

DSC WS4939: Wireless key (keyfob)

- Durable, scratch-resistant buttons
- 4 programmable function keys
- Long-life lithium batteries included
- Full 3-second delay on panic alarm to reduce false alarms
- Multifunction belt clip included
- Optional generic rubber insert included
- Water resistant

DSC WS4904P: Wireless Pet-Immune Infrared Detector

- Based on the Bravo 3D hardwire motion detector
- High-traffic shutdown
- features pet immunity up to 60 lbs (27 kg)

DSC WS4916: Wireless photoelectric smoke and heat detector

- Automatic drift compensation
- Built-in, dual-sensor heat detector with fixed heat and rate of rise
- Built-in 85 dB horn

- Local test button
- Low profile design
- High/Low sensitivity reporting
- Low battery indication
- Easy-maintenance removable smoke chamber
- Long-life lithium batteries

DSC WS4945: Wireless door/window contact

- Built-in reed switch
- Normally closed external contact input
- Case and wall tamper

Hi Light Features of Package 11

DSC Alexor

Alexor is a wireless control panel, the virtual "brain" of the security suite. Because it is a distributed system, the panel is not attached to the keypad physically, but rather wirelessly. Designed for flexible, secure installation locations within the home, as long as there is access to AC power, Alexor operates via up to four wire-free keypads (the WT5500). If the system changes its armed state or a wireless device is tampered with, Alexor will immediately be signaled and the appropriate transmission will instantly be transmitted to the monitoring station. And because the signals between Alexor Wireless Panel and its wireless peripherals are fully encrypted, communication between all devices is exceptionally secure. The Alexor offers all the reliability of traditional wired/hybrid control panels but with all the convenience that wireless delivers.

Features

- Separate the control panel or "brain" of the system from the wireless keypad: This makes Alexor perfect for wireless installation without the "smash-and-grab"* risk of typical self contained wireless security system.
- Supports 32 wireless zones and 16 wireless keys (without using a zone slot)
- 16 user codes, 1 master code and 1 maintenance code
- Alternate communications via GSM/GPRS and IP (optional module required)
- Local and remote downloading (optional module required)
- 500 event buffer
- 4 communication phone numbers
- 2 Input/ Output terminals
- Front and back tamper
- Onboard Siren at 85dB
- False alarm reduction features (CP-01)

"Smash-and-grab"* is a typical term used in security risk found in All-In-One integrated wireless security system or self-contained security system. If a criminal breaks in and hears a beeping "keypad" right next to the door, they very easily could destroy the device. All of these instances would leave your location vulnerable as the panel has been defeated before it could send out the alarm signal to the central alarm monitoring station.

DSC WT5500: 2-Way wireless, wire-free keypad

- 2x16 full message display
- Intuitive clock programming
- Multiple door chime
- Ambient light sensor
- Display and keymat backlighting
- Outdoor temperature display (when use with WT4911, 2-way wireless outdoor sounding siren with strobe)
- Wall and optional Deskstand mount
- Multi-Language support
- 5 programmable function keys
- 3 one-touch emergency keys
- Tamper switch
- Nominal battery life - 3 years

DSC WS4904P: Wireless Pet-Immune Infrared Detector

- Based on the Bravo 3D hardwire motion detector
- High-traffic shutdown
- features pet immunity up to 60 lbs (27 kg)

DSC WT4989: 2-way Wireless key with ICON and buzzer (keyfob)

- Backlit icon display
- Built-in buzzer for audible feedback
- Key tactile feedback
- 4 one touch function keys, programmable for up to 6 functions
- Status button indication
- Active alarm indication
- Water resistant
- Multifunction clip
- Nominal Battery life - 3 years

DSC WS4939: Wireless key (keyfob)

- Durable, scratch-resistant buttons
- 4 programmable function keys
- Long-life lithium batteries included
- Full 3-second delay on panic alarm to reduce false alarms
- Multifunction belt clip included

- Optional generic rubber insert included
- Water resistant

DSC WS4916: Wireless photoelectric smoke and heat detector

- Automatic drift compensation
- Built-in, dual-sensor heat detector with fixed heat and rate of rise
- Built-in 85 dB horn
- Local test button
- Low profile design
- High/Low sensitivity reporting
- Low battery indication
- Easy-maintenance removable smoke chamber
- Long-life lithium batteries

DSC WS4945: Wireless door/window contact

- Built-in reed switch
- Normally closed external contact input
- Case and wall tamper

DSC WT4911: 2-way wireless outdoor siren sounding with strobe (Flash light)

- Completely wire free solution: no wire back to the control panel or wire from power supply required (powered by type "D" lithium cell) – This make it perfect for renovation project (existing house that is wall and ceiling finished and owner wants to minimize drilling holes or wiring wires/cables throughout the house).
- Siren Output – 105dB
- Siren sounds for alarms and squawks
- Strobe light functionality for visual indication
- Provides temperature to WT5500 Wire-free keypad
- Local and remote test capability
- Transmits RF status, low battery and tamper condition
- Front and back tamper detection
- IP34 rating
- Nominal battery life - 4 years

DSC WT4901: 2-way wireless outdoor siren sounding

- Siren Output – 85dB
- Siren sounds for alarms, door chimes, entry/exit delay and troubles
- Onboard test button

- Transmits RF status, low battery and tamper condition
- Front and back tamper detection
- Nominal battery life - 2 years

- Standard Installation fee for Bangkok and peripheral area inclusive. Contact us for installation charges outside Bangkok and peripheral area.
- The voucher is good for redeeming Exzel Smart Home's products, services, and installation charges at MSRP (Manufacturer Suggested Retail Price), and is not combinable with other promotion.
- Please add 7% VAT (Value Added Tax) to all prices.

Hi Light Features of Package 12

Honeywell LYNXRIEN

With its uncompromising technology and reliability, the new LYNXRIEN is as easy to install as it is to use. The exciting new voice prompt programming feature walks you through the installation process, letting you install the system with little or no training. Designed for a quick install, LYNXRIEN-EA is a control panel, keypad, siren, dialer, two-way voice system and speakerphone in one sleek unit. It supports all 5800 wireless devices and sensors.

Features

- Voice prompt programming mode
- 24 wireless zones of protection and one hardwired zone
- Can accept four wireless keys that don't require zones
- Full 16-button keypad with easy-to-read LCD display and status LEDs
- Built-in two-way voice system
- Wall or optional desk-top mounting
- 85db internal sounder with voice siren
- Internal speaker and microphone
- 16 user codes
- 84 event log (Fully downloadable)
- Scheduling
- Voice siren
- Full voice response
- Family message center that records and plays back voice messages
- Remote interactive phone control
- Bi-directional remote provides system status feedback
- Wireless, programmable remotes offer single-button system control
- Chime by zone feature sounds chime and speaks location in plain English

Honeywell Wireless Rate-of-Rise & Fixed Temperature Heat Detector

Honeywell wireless rate-of-rise temperature & fixed temperature heat detector offers expanded fire detection and installation flexibility. It is ideal for hard to wire locations. With no wires to run, it is fast and easy to install. It combines both rate-of-rise and fixed temperature sensors. Fires typically cause a rapid rise in temperature in the surrounding area. The detector's rate-of-rise thermostat senses the rise in temperature and signals an alarm if the increase is 8 c or more per minute. A built-in fixed temperature sensor will also signal an alarm if the environmental temperature rises above 57 c.

Honeywell wireless two-zone door/window transmitter

Two zone transmitter with (1) built-in magnetic reed switches and (2) wired closed circuit contact loop

The second transmitter (wired closed circuit contact loop) can be used to transmit the Optex PIR detector signal.

DSC PowerSeries PC1616, PC1832, PC1864

DSC Powerseries PC1616, PC1832, PC1864 are the hybrid wired and wireless security and fire alarm control panel that is suitable for new construction project where wiring all devices are still possible. All panels are SIA CP-01 (reduces false alarm)

Features PC1616

- 6 on-board zones
- Expandable to 16 hardwired zones
- Expandable to 32 wireless zones
- 2 PGM outputs: expandable to 14 (PC5204, PC5208)
- Connect up to 8 supervised keypads with keypad zones
- 2 partitions
- 500-event buffer
- 48 user codes

Features PC1832

- 8 on-board zones
- Expandable to 32 hardwired zones
- Expandable to 32 wireless zones
- 2 PGM outputs: expandable to 14 (PC5204, PC5208)
- Connect up to 8 supervised keypads with keypad zones
- 4 partitions
- 500-event buffer
- 72 user codes

Features PC1864

- 8 on-board zones
- Expandable to 64 hardwired zones
- Expandable to 32 wireless zones
- 4 PGM outputs: expandable to 14 (PC5204, PC5208)
- Connect up to 8 supervised keypads with keypad zones
- 8 partitions
- 500-event buffer
- 95 user codes

Features LCD-5511 - 64 zone Icon LCD Keypad with zone input

- Modern, slim-line portrait keypad
- Large, backlit buttons on keypad for trouble-free viewing and activation
- Intuitive symbols and backlit display
- Input/ Output terminal can be programmed to operate as a zone input, programmable output or as a low temperature sensor
- 4 programmable function keys
- 8 partition support
- Dual FAP (Fire, Auxiliary, Panic) keys: Press and hold 2 appropriate buttons for 2 seconds to send fire, auxiliary, panic emergency message to the central monitoring service center.
- New AC status ICON
- Wire channel for flush mounted installation

Features PK-5508 - 8 zone Icon LED Keypad with zone input

Features PK-5516 - 16 zone Icon LED Keypad with zone input

- PK-5508 supports 8 zones while PK-5516 supports 16 zones.
- Modern, slim-line landscape keypad
- Enlarged keypad buttons
- 5 programmable function keys
- Input/ Output terminal can be programmed to operate as a zone input, programmable output or as a low temperature sensor
- 3 one-touch emergency keys
- Multiple door chime per zone
- Adjustable backlight and keypad buzzer
- Wire channel for flush mounted installation
- Dual wall-mount and front cover tamper
- New AC status ICON

Features PK-5500 - 64 zone full message keypad with zone input

Features RFK-5500 - 64 zone full message keypad with zone input & support 32 wireless zones & 16 wireless keys

- 8 language support
- Global partition status
- Full 32-character programmable phrases
- Modern, slim-line landscape keypad
- Enlarged keypad buttons
- 5 programmable function keys

- Intuitive clock programming*
- Input/ Output terminal can be programmed to operate as a zone input, programmable output or as a low temperature sensor
- 3 one-touch emergency keys
- Multiple door chime per zone
- Adjustable backlight and keypad buzzer
- Wire channel for flush mounted installation
- Dual wall-mount and front cover tamper
- New AC status ICON
- RFK5500 includes all of the same features and supports 32 wireless zones and 16 wireless keys

DSC PC5108: 8-Hardwire zone expander module

- Adds 8 hardwire zones
- AUX power, 125 mA (PTC protected)
- Compatible with PC1616, PC1832 and PC1864 control panels

DSC EC-301: PIR Motion sensor

- Patented Multi-Level Signal Processing (MLSP)
- Good for controlled environment
- PIR technology

DSC LC-104PIMW: Dual-Tech Microwave/PIR, Pet immune, motion detector

- Tamper switch
- Digital signal analysis
- Pet immunity up to 25 kg (55 lbs)
- Quad Linear Imaging Technology for sharp analysis of body dimensions and differentiation from backgrounds and pets
- Microwave detection based on Doppler concept
- Unique microwave motion sensor module with micro-strip patch antenna
- Advanced ASIC-based electronics
- 2-way PIR/microwave sensitivity adjustment
